1. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. Misnumbered claims 1-29 been renumbered 32-60.

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 32-51, drawn to a conformation comprised of an active ingredient and an oligomer or polymeric material.

Group II, claim(s) 52-60, drawn to a process for making a conformation comprised of an oligomeric or polymeric material.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The product of Group I may be formulated in different ways requiring different materials with the only requirement being that a uniform mixture results while the method claims show a high degree of specificity for a distinct formulation.
